The Heart and Vascular Center

**The Heart and Vascular Center**  
at South Baldwin Regional Medical Center

*"As a physician, it's encouraging to see South Baldwin Regional Medical Center's dedication to advancing healthcare in our community. My patients and I appreciate the hospital's ongoing investment in new technology, equipment and programs that enhance my ability to provide the best care possible."*

— Karl Hakmiller, M.D., F.A.C.C.  
Cardiology Associates

## Heart and Vascular Center

A heart-healthy lifestyle is the best way to prevent cardiovascular disease. At South Baldwin Regional Medical Center, cardiac and vascular services include programs to help patients not only achieve a heart-healthy lifestyle, but also to receive diagnosis, treatment and rehabilitation before, during and after a cardiac event.

Our new Heart and Vascular Center exemplifies the South Baldwin Regional Medical Center commitment to “Quality Care, Close to Home.”

SBRMC received the 2007 and 2008 American Heart Association Gold Achievement Award for coronary artery disease treatment as part of its *Get with the Guidelines* quality improvement program. And the Intersocietal Commission for the Accreditation of Echocardiography Laboratories (ICAEL) has recognized the Center as Baldwin County’s first accredited echocardiography lab.

## South Baldwin Regional Medical Center’s Heart and Vascular Center

is located on the first floor across from the Emergency Department. Under the medical direction of board-certified cardiologists and vascular surgeons, specially trained cardiac nurses and technologists work hand-in-hand to help patients and their families feel comfortable, safe and informed during cardiovascular procedures. The Heart and Vascular Center offers the following quality services to patients:

- **Cardiac Ultrasound**
- **Cardiac Stress Testing**
- **Tilt Table Testing**
- **Cardioversion**
- **Pacemaker Insertion**
- **ICD Implantation**
- **Cardiac Resynchronization Therapy**
- **Cardiac Catheterization**
- **Peripheral Angiography**
- **Peripheral Angioplasty (ballooning)**
- **Peripheral Stenting**
- **Laser (arterial)**
- **IVC filter placement**
- **Thrombolysis (dissolving clots)**
- **Cardiac & Pulmonary Rehabilitation**

Following a heart attack, patients often complete our Cardiac Rehabilitation Program, which involves lifestyle modifications such as exercise, good nutrition, smoking cessation, diabetes education and stress management. Patients complete a prescribed number of sessions under medical supervision, prior to returning to their normal daily activities.

Choose South Baldwin Regional Medical Center for your cardiovascular care. To learn more about our services or to schedule a tour, please contact us at 251-949-3660.

**South Baldwin Regional Medical Center’s Mission** *is to provide quality, cost-effective health care in a safe, caring and compassionate environment conducive to the overall well-being of our patients, community, physicians and employees.*
